

Valent Clip

Valent Clip good closure and unique design

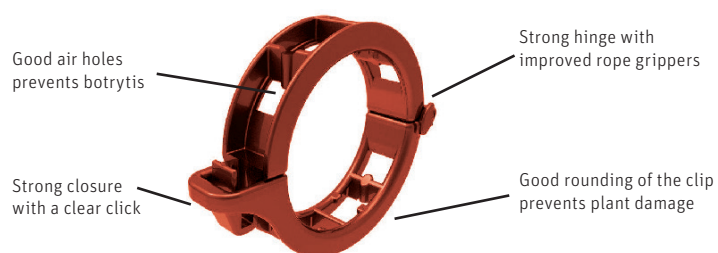

A clip with a good lock that is easy to use for growers. The Valent Clip has a unique design compared to other clips.

Specifications:

	15 mm	23 mm	26 mm
	20.000 st	12.500 st	7.000 st
	600.000 st	375.000 st	210.000 st
	120 x 100 x 243 mm		

The clip is made of less material, but is still very sturdy. The excellent curvature ensures that there is less chance of damage to the plant. Although less material is used, the rope grabs are reinforced so that the Valent Clip stays on the rope. It is clearly audible when the clip is closed. When closed, the clip can easily be opened again. In addition, it provides optimal guidance, does not hinder the growth of the plant and does not cause any damage. Because there are two variants of the Valent Clip, the dimensions will ideally suit your crop. From a sustainability point of view, the Valent clips are made from 100% high-quality recycled material.

In short: the Valent Clip is the best choice for your crop.

The Valent Clip is excellent to use in combination with Valent Twine, another product from our Valent-line. Valent Twine is perfect for high wire hooks in tomato, cucumber, eggplant and paprika cultivation. Valent Twine is strong and does not absorb moisture, which eliminates the risk of rope breakage.

For the Valent Clip and other crop rotation questions, please contact your accountmanager to get further information about this.
